EDUCATION

Northeastern University | M.S., Engineering Management | Boston, MA Jan 2026 – May 2028
GPA: 4.0 / 4.0 | Coursework: Advanced Product Management, Digital Product Design & Management
Nitte Meenakshi Institute of Technology | B.E., Electrical & Electronics Engineering | Bengaluru, India Aug 2019 – Jul 2023
CGPA: 7.9 / 10 | Coursework: Operation Research, Entrepreneurship Development Management & IPR

SKILLS & CERTIFICATIONS

Project Management: Project Planning, CPM/PERT Scheduling, Milestone Tracking, Risk and Issue Management, Stakeholder Management, Status Reporting, Cost and Schedule Trade-offs, Root-Cause Analysis, Process Improvement, Agile/Scrum
Methods: Requirements Gathering, SLA and KPI Tracking, RICE Prioritization, PRD Writing
Data & Tools: SQL, Excel, Power BI, Python, Jira, Confluence, Miro, Figma, Git, LLM Workflows
Certifications: Google Project Management, Azure AI Engineer Associate, Cisco CCNA, CompTIA Security+, Google Analytics

WORK EXPERIENCE

Product Support Analyst | Kyndryl Solutions (Kyndryl Bridge) | Bengaluru, India Mar 2024 – Dec 2025

- Traced **24% of onboarding tickets** to 1 SSO configuration step, then **partnered with Product and Engineering** on a fix and a rewritten setup guide; **SSO tickets fell from 80 to 60 a month**.
- Flagged a **4x post-release error spike** (5 to 22 tickets a day) to Engineering **within 18 hours**, before it hit the standing backlog.
- Turned **2,500+ incidents** into a **prioritized fix list** for engineering leads and helped **3 teams of about 75 engineers** agree on priorities; covered **on-call** for major incidents.
- Across **10,000 network devices**, worked with project managers to scope a **Power BI dashboard** replacing manual **SLA reporting**.
- Escalated **5 validated product gaps** into the backlog in 1 quarter through a **signal-tracking process** I built to flag recurring issues.

IT Analyst | New Era Technology (Cameo Global), client: Cisco Systems | Bengaluru, India Sep 2023 – Mar 2024

- In 2 months, **cut the login and access reopen rate from 9% to 4%** by pulling device data with **SQL** and tracing recurring failures.
- Ran **12+ root-cause analyses** on recurring incidents and delivered **weekly and monthly status reporting** to leadership that surfaced a **post-launch rollout fix**.
- Wrote **8 SOPs** and troubleshooting guides that the wider support team adopted, cutting Tier 1 reliance on senior staff; also the **main contact for Cisco site teams**.

PROJECTS

Smart Project Scheduler, LLM + Operations Research Apr 2026
Python, SciPy (scipy.optimize), Claude API

- Saved **3 days on a 25-day sample project** at \$2,000 crash cost by using **LP optimization** to choose which tasks to crash.
- Generated **3 scheduling models** (CPM, PERT, LP) from raw task lists via a Claude API pipeline that extracts **task dependencies**.

Quantum Computing Simulator, Industry-Partnered Capstone | Team Lead | NMIT Aug 2022 – Jun 2023
IBM Qiskit, Raspberry Pi, Excel

- Led **6 contributors**, owning the **roadmap, milestones, and work split** after securing an **external industry partner**.
- Balanced **2 stakeholder groups** (faculty and industry partners) with different definitions of success on a **fixed academic timeline**.

Luminary, Cross-University Research Discovery Platform | Team Lead | Protothon 8.0, Northeastern Mar 2026
React, Vite, FastAPI, Pinecone, scikit-learn, Groq (Llama 3.3 70B) | [GitHub](#) | [Live Demo](#)

- Placed **1st of 50 teams** leading 4 people to **scope a federated platform** that keeps raw research data on its home campus.
- Interviewed **3 users**, benchmarked **6 tools**, and **RICE-scored scope**: kept RAG search (146), cut messaging (53).

Spotify Social Layer, PM Case Study and PRD May 2026
Figma, Google Docs | [PRD](#)

- Sized a **\$100M+ yearly conversion opportunity** from Spotify's Q1 2026 shareholder data (483M free vs. 293M Premium users).

Determinants of Automotive Pricing | 4-person team | IE 6200, Northeastern Apr 2026
Python, pandas, SciPy, seaborn, Google Colab

- Showed **76.4% of price variance** comes from engine size, owning **ANOVA and regression** on a **205-vehicle dataset**.

LEADERSHIP

Vice President | Q-Bits Quantum Club, NMIT Mar 2022 – Jul 2023

- Narrowed **80 teams to 20 finalists** at QuantaMaze, **India's first national student-level quantum computing hackathon**, and raised **INR 200,000 in sponsorships** with a **20% margin** that funded a second edition.
